Email: info@wisegigs.eu

Wisegigs Limited is a Hong Kong–registered company specializing in web development, managed hosting and digital services for international clients. Our team designs, builds and maintains WordPress websites, e-commerce stores and custom online solutions, while also providing ongoing support, performance optimization and consulting. Through the Wisegigs Dev department, we focus on reliable long-term partnerships: we take care of the technical side – infrastructure, code quality and security – so that our clients can focus on growing their business.

Wisegigs Limited – Managed Hosting on VPS & Dedicated Servers

We provide fully managed hosting for WordPress websites and web applications on our own virtual and dedicated servers, located in large, professional data centers in Europe.

Our focus is on **performance, security and peace of mind**: we handle the infrastructure so you can focus on your business.

We continuously monitor resource usage (CPU, RAM, storage, traffic). If your project outgrows its current server, we propose and carry out an upgrade so that your website stays fast and stable.

What's Included in Every Plan

1. **Powerful Servers** with modern multi-core CPUs and ample RAM
2. **Fast NVMe / SSD Storage** for quick page loads
3. **Free Website Migration** – we move your site to our servers with minimal downtime
4. **Domain & Subdomain Management** support
5. **Easy Control Panel** for basic management tasks (emails, domains, DNS, etc.)
6. **Flexible PHP Versions** (multiple versions available)
7. **Support for Custom Scripts** (phpMyAdmin, mail tools, cron jobs, etc.)

8. **Free Auto-Renew SSL Certificates** for secure HTTPS
9. **Shared or Dedicated IP** address, depending on the plan
10. **Full FTP & SSH access** when needed (under our supervision for security)

Backups & Reliability

1. **Daily server & database backups** (multiple restore points kept)
2. **Instant restore options** for quick recovery in case of problems
3. **Automatic performance & uptime checks**
4. **MySQL & server repair support** if issues arise
5. *(Optional)* **Weekly off-site cloud backups** to a separate location for extra safety

All hosting is **managed**: we take care of server updates, security hardening, monitoring and maintenance.

Managed VPS Plans (Yearly Billing)

All prices are **per year** and **exclusive of VAT**.

Wise Host Essential – 300 € / year

1. 2 vCPU, 4 GB RAM
2. 60 GB NVMe / SSD storage
3. Suitable for: small business websites, portfolios, basic landing pages with moderate traffic.
4. Includes: server management, security updates, daily backups.

Wise Host Business – 480 € / year

1. 4 vCPU, 8 GB RAM
2. 120 GB NVMe / SSD storage
3. Suitable for: corporate websites, medium-traffic blogs, small WooCommerce shops.
4. Includes: priority monitoring, daily backups, basic caching setup and performance tuning.

Wise Host Pro – 780 € / year

1. 6 vCPU, 16 GB RAM
2. 200 GB NVMe / SSD storage

3. Suitable for: busy e-shops, membership sites, multi-site setups or high-traffic projects.
4. Includes: advanced performance tuning (object cache, PHP/OPcache optimisation), enhanced monitoring and daily + weekly backups.

Managed Dedicated Server (Custom)Wise Host Dedicated – from 1,500 € / year

For projects that need dedicated hardware and maximum performance.

1. Custom CPU, RAM and storage configuration based on your needs
2. Ideal for: large e-commerce, SaaS platforms, many sites on one server, or high-traffic portals
3. Dedicated resources (no sharing with other customers)
4. Fully managed by Wisegigs (OS, security, updates, monitoring, backups)

A short technical and business briefing is performed first; then we propose a server configuration and final yearly price based on your actual requirements.

Management, Monitoring & Scaling

Regardless of the plan:

1. We **monitor** CPU, RAM, disk usage and uptime.
2. We **proactively notify you** if we see that your project needs more resources.
3. We handle **upgrades and migrations** to a larger VPS or dedicated server when needed.
4. We regularly apply **security patches and system updates** to keep your environment stable and secure.

Content changes and website feature development are not included in the hosting price.

For that, you can combine hosting with our **Wise Simple / Pro / Advanced support packages**.
